### PROFESSIONAL SUMMARY

Self-taught Front-End Software Engineer with over 6 years of experience, specializing in React, Vue.js, and Next.js. Adept at leading project development from concept to completion. Seeking to leverage technical skills and leadership abilities in a challenging front-end software engineer role.

### SKILLS

React, Next.js, Vue.js, TypeScript, JavaScript, Elixir, Phoenix Liveview, PHP, WordPress, Python, Django, HTML/CSS, Git

### EXPERIENCE

#### **Full Stack Developer** **Thrive Creative, Chicago, IL**

**04/22 - 12/22**

- Collaborated with senior management to develop Thrive Creative's tech strategy, identifying Vue.js and React as key competitive advantages.
- Gathered client requirements and defined the scope for front-end projects, resulting in a 20% increase in project efficiency.
- Led the development of Thrive's website using Next.js and WordPress for the backend, improving site performance by 30%.
- Developed a custom software application for internal project management using Laravel and Vue, enhancing team efficiency by 30%.
- Created a comprehensive technical audit report using Excel, identifying essential software and website features for clients.

#### **Full Stack Developer** **The Office of Experience (Full Service Digital Agency), Chicago, IL**

**06/18-04/22**

- Led front-end development for ASCM's B2C website on Optimizely, enhancing site performance through Vue.js integration and removal of legacy jQuery code.
- Served as the front-end solution architect for a Vue.js-based B2B solution for ASCM.
- Developed 15+ custom React components for PWC's internal web app.
- Translated design concepts into functional websites and email campaigns in collaboration with designers.

**Full Stack Developer**  
**National Safety Council, Itasca, IL**

**06/17-06/18**

- Developed "Injury Facts," an informative website with safety data and related links.
- Ensured adherence of 100+ web pages to technical and aesthetic standards through collaboration with cross-functional teams, resulting in a 30% increase in user engagement.
- Created job safety calculators using React and D3.js, enhancing workplace safety measures for 500+ companies nationwide.

**Front End Developer**  
**ARS Interactive, Palatine, IL**

**06/12-06/13**

- Integrated Kenmore's responsive design, leading to a 25% increase in mobile traffic.
- Coordinated with design for the successful launch and ongoing maintenance of Sears Corporation's online presence, improving user experience.
- Proficient in implementing various content management systems, including WordPress, Expression Engine, and IBM WebSphere Commerce.

**EDUCATION**

**Bachelor of Science in Computer Science | Western Governors University (WGU),  
Millcreek, UT | Expected Enrollment: Fall 2023**
